SUBMIT YOUR ABSTRACT NOW

Don't miss this possibility and be sure to meet the DEADLINES!

REGISTRATION FEES

Located in the heart of Europe, Budapest connects the East and the West, the Past and the Present. In 2017, it will connect neurointerventionists and will build bridges between neuroscientific specialities, as well as scientists and medical practitioners.

**In 2017, the city of bridges will host the society of connections: WFITN.**

Looking forward seeing you in Budapest next year.

Yours,

Istvan Szikora, President of WFITN2017 Congress
